Subtract it from a base of Dodge Challenger Hellcat, and you'll have almost a Chevrolet spark of power shifting. One hundred horsepower is what you'll get as you should opt for the current Automotive latest and largest package for the Ford Mustang GT, the black label of the Saleen S302. The current generation Saleen 302 raised the ante in the GT category. Wind tunnel tested Aero Dynamics, a proven suspension of racing, and increased power makes this vehicle a serious contender. The Saleen White Label now comes standard with 500HP! No other vehicle on the market offers this kind of performance for the money. We drive many fast and noisy cars, but few deliver the noise and fury of the black label S302 on full tilt. For those who want even more power, our yellow label erases 745hp, and our black cover frame makes an astonishing 800hp. That said, the GT500 only comes with a dual-clutch automatic, while the black label gets a six-speed manual. And then there is the simple fact that 800 horses will eat a lot of hay. Drive it like a sensible person and the fuel economy of the supercharged S302 isn't too terrible, but once you touch the thrust, the fuel flow is similar to Niagara Falls. Some people will dismiss it as a ridiculous excess - but these people are not driving around in 800-HP cars.You are all 22 photos2019 Saleen S302 - Black Label Á'Á Specs for sale Now Price \$ 78,495 (base) engine 5.0L dohc 32 VÁÁlvula V-8; 800 HP @ 6.000 rpm, 687 lb-ft @ 5.200 rpm rpm .rof.
